

Compresses Stevia - recharge of 2,500 tablets + 600 tablets in the manual dispenser with Rebaudioside A

Stevia (*Stevia rebaudiana Bertoni*), is a plant of Paraguayan origin. Its stupefying sweetness exceeds that of normal sugar, Stevia owes it to the Steviol glycosides. They are found in the leaves.

The Stevia tablets are calorie-free and have no influence on the blood sugar level. They are indicated for diabetics. The Stevia tablets have numerous uses and serve as a sugar substitute.

Ingredients: sugar substitute sorbitol, sodium citrate, sodium bicarbonate, sweetener steviol glycosides (11.4%), magnesium stearate and silicon dioxide.

Sorbitol can have laxative effects (approximately 10 grams per day, which corresponds to 270 tablets per day).

Dosage: 1 Stevia tablet is equivalent to approximately 3 grams of sugar or 1 drop.

Content: Stevia tablets - recharge of 2,500 tablets + 600 tablets in the manual dispenser

Art.-Nr.: 455
